Participation Guidelines

The event will be conducted in teams of 2-3 members each.

Each participant can only be a part of one team.

The team members may use any means of communication amongst themselves.

Format

The participants would have to join a live zoom meet.

The clues will be shared with the participants in the live meet itself.

The students will have to solve the clues and locate the places on google maps (Open <https://www.google.com/maps> on your browser).

A logo will be formed on the map after sequentially marking these locations on google maps.

The participants will have to name the company/organization whose logo is being formed on a time-based quiz on the Quizizz.

The participants will have to submit the screenshots of the logo formed on the map via a google form.

The participants will be given extra 10 minutes to submit the screenshots. Failure to do so would result in disqualification of the team.

The top 3 teams on the quizizz leaderboard will be declared winners. Participants are given points both on accuracy and speed.
